Charlotte Storm Water Services / Construction

Farmer Street/Romare Bearden Storm Drainage Improvement Project

The purpose and need for this construction project is to improve the storm drainage infrastructure (i.e. pipe systems and culverts) to reduce flooding and to enhance degraded stream reaches to reduce erosion and improve water quality. This project is bordered by West Boulevard to the north, Farmer Street the south, Clanton Road to the east and Ross Avenue to the west. The drainage system consists of closed corrugated metal pipe systems underneath City maintained roads. Approximately 3,200 linear feet of 60-inch deteriorated corrugated metal pipe will need to be replaced.

Details
