

Charlotte Department of Transportation / Construction

Graham Street Intelligent Transportation System (ITS) Project

This project will install approximately 2.5 miles of 72 count single-mode fiber optic cable installed in mostly existing conduit. There are also small portions of new directionally bored, hand-dug, and trenched conduit. This project includes entrances and communications equipment for six existing traffic signal control cabinets and the installation of seven traffic management cameras. The project limits are North Graham Street beginning at West Sugar Creek Road to Mallard Creek Road to West WT Harris Boulevard. This project includes fiber optic cable splicing, testing, Ethernet equipment communications, and traffic management cameras and equipment.
