Charlotte Department of Transportation / General Services

Spectrum Center Traffic Control - CANCELLED

DUPLICATE of "Traffic Control Services" The City of Charlotte provides direct traffic control and logistical support for the Spectrum Center which is host to an estimated 125 sporting, music, business, and other events a year. To reduce visitor risk, increase visitor return rates and minimize oversight and recurring management of City staff, the City has determined that a Traffic Control Plan, and a Company to perform portions of this plan are necessary for select events. During the last year, the City and current Company have provided this support for over 69 events. The selected Company shall be the sole provider of traffic control services for the Spectrum Center and designated areas around the Spectrum Center.

Details

Posting Number	2023-Q3(Jul-Sep)-CDT-4017
